

## **WELCOME to DROVE PRIMARY SCHOOL**

### **‘The Roots to Grow and the Wings to Fly’**

I would like to welcome you and your child to Drove Primary School and thank you for taking the time to find out about our very special school.

Making the decision about which school is the right one for your child can be a difficult one, but we hope that this booklet will help to give you a flavour of Drove Primary School Early Years and the learning opportunities we provide.

We work hard to set high standards for all in terms of both academic and emotional aspects of learning. We want all children to succeed and achieve their potential in a safe, happy and caring environment. We encourage the children to feel part of our ‘school family’ in which everyone is valued and feels important and very special.

We believe that education is a partnership and the involvement of our parents in this is essential. You will always be welcome into school, to share in all aspects of your child’s progress and development. We encourage you to come into school and work with us if you have any free time. ‘Linger and Learn’ and ‘Stay and Play’ sessions are part of our everyday life, involving parents learning alongside their children. Parental support plays such an important role in children’s education.

Childhood is a very special time. You have our promise to ensure that we will make these school years as rewarding as possible by providing a curriculum which is fun, engaging and full of memorable experiences.

Our children are at the centre of everything we do. When you visit the school you will see how our vision and values shine through and support the development and growth of your child at every step.

We are very much looking forward to working with you and your child.

Mrs Helen Swanson

Principal
